Description:

When humanity expanded beyond the safety of Earth to new stars and horizons, they never dreamed what dangers they would encounter there. When the alien juggernaut known as the Covenant declared holy war on the fragile human empire, millions of lives were lost - but millions of heroes rose to the challenge. In such far-reaching conflict, not many of the stories of these heroes, both human and alien, have a chance to become legend. This collection holds stories that dive into the depths of the vast Halo universe, not only from the perspective of those who fought and died to save humanity, but also from those who vowed to wipe humanity out of existence.
