Description:

Philosophy like you've never seen it before The latest in the celebrated Cartoon Introduction series, *The Cartoon Introduction to Philosophy* is an authoritative and engaging guide to the fundamental questions about our existence. In this indispensable primer, Kevin Cannon—one of the talented illustrators behind *Evolution* and *The Stuff of Life*—and the philosopher Michael F. Patton introduce the wisecracking Greek Heraclitus, who hops in a canoe with us as we navigate the great debates of Western thought. As we make our way down the winding river of philosophy, we meet the pre-Socratics, who first questioned mythology and wondered about the world around them; encounter the disciplines of logic, perception, and epistemology; face the central problem of free will; and witness historic arguments over the existence of God. Along the way, famous thinkers like René Descartes and Immanuel Kant spell out their work in clear, light-hearted conversations that will put readers at ease
