Binding/PP:	Paperback (BC), 112 pp
Rights Countries:	Ireland & United Kingdom
Pub. Date	01 Jul 2018
Price:	GBP4.99
Illustrator:	John Hinderliter

Selling Points:

Learn more about what climate change means and how it's affecting our planet.

Description:

The earth is definitely getting warmer. There's no argument about that, but who or what is the cause? And why has climate change become a political issue? Are humans at fault? Is this just a natural development? While the vast majority of scientists who study the environment agree that humans play a large part in climate change, there is a counterargument. Author Gail Herman presents both sides of the debate in this fact-based, fair-minded, and well-researched book that looks at the subject from many perspectives, including scientific, social, and political.
